Description

The Byok Piani Rondo 68 Downlight is one of the medium sized of four modern round pendant lamps from the Piani collection. Various surfaces are available: aluminum matt black, aluminum matt and aluminum polished. The light is emitted by the lamp body glare-free downwards. The Piani Rondo 68 Downlight has a canopy with a diameter of 26 cm and a height of 6.8 cm.

The integrated LEDs can be **dimmed on site with a trailing edge phase dimmer**. On request, they are also available with gesture control and Dim2Warm technology. With gesture control, the light is dimmed by holding the hand flat under the lamp. With Dim2Warm technology, the light takes on a warmer colour when dimmed. When dimmed, the light colour of the LEDs changes from 2,700 Kelvin extra warm white to 2,100 Kelvin extra warm white. The dimming range is between 0 and 100 percent. In addition, the lamp is also available on request as a version that can be dimmed by smartphone/tablet via Bluetooth.
