### Description

The Foscarini Big Bang Parete / Soffitto is the ceiling or wall lamp out of the Big Bang series. Enrico Franzolini and Vicente Garcia Jimenez succeeded in keeping a very unique dynamics with this light. The differently sized methacrylate plates overlapping each other seem randomly arranged as if an explosion took place before. This overlapping arrangement creates a diffuse and dazzle-free light distribution and it results in a pleasant atmosphere inside the room. The Foscarini Big Bang Parete / Soffitto is available in red and white.
