

Serien Lighting

Job

Version

- Furniture
- Table base
- table clamp

Voltage

- 230 - 240
- 110 - 125

Technical details

Country of Manufacture	 Germany
Manufacturer	Serien Lighting
Designer	Yaacov Kaufman
Year of design	2009
protection	IP20
Scope of delivery	LED
voltage suitability	110 - 240 Volt
Projection in cm	90
material	Borosilicate glass, leather, stainless Steel
dimming	Push button dimmer on lamp head
socket/light fixture	E27
Power (max. Watt)	13 Watt
LED	inclusive
Color temperature in Kelvin	Dim to warm
Shade diameter	11 cm
Shade height	9 cm
lamp stand dimensions	24 cm
bulb exchange	on site itself

Description

The lamp arms of the Serien Lighting Job are adjustable at any time. Its lamp head can also be swivelled. This table lamp emits its light directly and shielded at the sides. It also convinces functionally: even at maximum power, the lamp head remains cool. The underside of the table base is made of genuine leather; the table clamp and the Furniture furniture adapter for direct mounting are made of polished stainless steel. The lamp arms and shade are made of borosilicate glass and stainless steel. This table lamp is regulated with a push button dimmer on the lamp head. The lamp has the Dim2Warm function, which changes the light colour of the LEDs to a warmer tone (from 2,900 Kelvin warm white to 2,200 Kelvin extra warm white) when dimmed.
