

Luceplan

Berenice Parete

Oberfläche

- aluminum
- black

surface_of_reflector

- rose
- aluminum
- black
- brass
- white
- yellow
- green

Technical details

Country of Manufacture	 Italy
Manufacturer	Luceplan
Designer	Alberto Meda, Paolo Rizzatto
Year of design	1985
protection	IP20
Scope of delivery	Leuchtmittel/Bulb
voltage suitability	110 - 240 Volt
material	aluminum, nylon
socket/light fixture	GY6.35
switchability	on the light head
Power (max. Watt)	10 Watt
Arm length	45 + 45 cm
light head dimensions	10 cm
light distribution	directly

Description

The Luceplan Berenice Parete is a wall lamp whose light arms are traversable at every angle. Also a smaller light with shorter light arms is available, the Berenice Parete Piccola.

The reflectors of the lamp are offered in different colours: the reflectors in sage green, yellow, satin white and rose are made of glass, the reflectors in aluminum, brass and black are made of metal. By moving the light arms, the light can be emitted directly to the desired direction, in the variants with glass reflectors a part of the light is emitted by the reflector into the room. With an on / off switch on the head, the wall lamp can be operated. The light can be used with halogen lamps or LEDs. In 1985 Paolo Rizzatto & Alberto Meda designed the lamp.
