Description

The Oluce The Globe 827 is a pendant lamp with a diameter of 20 cm. The height is 18 cm. So it is the smaller one of two pendant lamps out of this series. It was recreated in 2015 by the Italian lighting manufacturer after a model by Joe Colombo. In the glass ball is included a metal lamp socket with satin nickel surface. As a light source, an E14 high-voltage halogen lamp with a maximum power of 40 watts or an LED retrofit is used.
