## Description

This Licht im Raum Ocular Spot 1 spotlight has a traversable lens that can be zoomed in and out. Thus, the beam angle can be varied from 30 ° to 60 °. A smaller value for the beam angle makes the light cone narrower, a larger value makes it wider. The light is bundled and directed to the place where it is needed.

The ceiling spotlight is also suitable as a wall spotlight. The lamp made of stainless steel is offered in polished or mat nickel-plated. The built-in LED can be dimmed on site (1-10 Volt).
