Description

The Licht im Raum Ocular Spot 1 round can be used as a wall and ceiling spotlight. The light body is round, as like the ceiling or wall bracket. The lens is swiveling and focuses the light so that it is directed precisely to the desired location. The beam angle of the built-in LED is 60 degrees.

The following surfaces are available for the lamp body: Matt nickel-plated and polished. The LED is dimmable on site at 1-10 Volt.
