

Luceplan

Hope Wall 48

Technical details

Country of Manufacture	 Italy
Manufacturer	Luceplan
Designer	Paolo Rizzatto
Designer 2	Francisco Gomez Paz
Year of design	2009
protection	IP20
Scope of delivery	Leuchtmittel/Bulb
voltage suitability	110 - 240 Volt
Depth in cm	29
Diameter in cm	48
material	polycarbonate, steel
surface	transparent
dimming	on site dimmable with a leading edge dimmer
socket/light fixture	R7s
Power (max. Watt)	120 Watt
Luminous flux in lm	2,250
Color temperature in Kelvin	2,950 warm white
light distribution	indirectly
Dimensions	H 43 cm Ø 48 cm

Description

The Luceplan Hope Wall 48 is with its diameter of 48 cm, the smaller light of two wall lights which are available in this series. It has a depth of 28.5 cm and a height of 43 cm. The light can be dimmed on site. The lamp body of the wall light consists of several pairs of arms arranged in pairs, on which a total of six Fresnel lenses are placed. The lenses break the light of the illuminant like glass and simultaneously produce a variety of reflections on the wall, ceiling and floor.

Designed by Francisco Gomez Paz and Paolo Rizzatto in 2009, the lamp and the complete series was inspired by the famous Hope Diamond. The series has been awarded with numerous prizes, including the Red Dot Design Award and the Compasso d'Oro.
