### Description

The Anglepoise Original 1227 Brass Maxi Pendant is a pendant lamp with direct light output. The steel lamp shade has a brass cap. The shade has a diameter of 29 cm and a height of 30 cm. The design of the pendant light was adopted from the first Anglepoise lights designed by industrial designer George Carwardine in the 1930s. The surfaces jet black and elephant grey are available for this lamp. The canopy has the same surface as the lamp shade. Like the lamp shade, the canopy is made of steel and has a diameter of 10 cm as well as a height of 6 cm. The cable has a maximum length of 150 cm and can be shortened if necessary. LED retrofit or compact fluorescent lamps are suitable as light sources.
