bulb exchange on site itself

Dimensions H 42 cm

Description

The Anglepoise Type 75 Mini Lamp with Desk Insert is installed into a table. The recessed light has movable light arms, which can be readjusted again and again by tension spring technology. Thanks to this tension spring technology, the table lamp remains in any set position. The lamp shade can be rotated and tilted. Lamp arms and shade are made of aluminum, the desk insert is a steel and aluminum construction. This recessed lamp is available in slate grey, jet black and alpine white. An on/off switch is integrated on the shade. The table lamp can be operated with LED retrofit lamps or compact fluorescent lamps. A table base in the matching surface is included in the scope of delivery.
