## Description

The Nyta Tilt Brass has a lamp shade made of solid brass. The outside is polished brass, the inside is brushed. The shade can be flexibly positioned along its elongated opening. It can be rotated by 360 degrees and tilted by a maximum of 110 degrees. Thanks to the self-fixing suspension, the pendant lamp retains any set position. The contour of the shade is cut out with a 3D laser. The surfaces are then polished, brushed and sealed by hand. The elaborate manufacturing process combines traditional craftsmanship with modern technology. The real, warm shining material brass enables a high-quality brilliance of the Brass lamps of Nyta.

The lamp shade has a height of 24.6 cm and a diameter of 28 cm. The canopy is black, as is the textile cable. The cable is available in lengths of 300 cm or 500 cm, if required it can be shortened for both versions. Halogen lamps or LED retrofit are suitable as light sources. The Tilt has already won numerous design awards.
