

Oluce

The Globe 228 OR

Technical details

Country of Manufacture	 Italy
Manufacturer	Oluce
Designer	Joe Colombo
Year of design	2018
protection	IP20
Scope of delivery	Leuchtmittel/Bulb
voltage suitability	110 - 240 Volt
material	Bronze, glass, metal
surface	gold-plated
cable color	black
dimming	dimmable on site
socket/light fixture	E27
switchability	on the lead
Power (max. Watt)	60 Watt
lamp stand dimensions	length 30, width 30 cm
light distribution	directly
Dimensions	H 33 cm

Description

The Oluce The Globe 228 OR table lamp is based on a concept by Joe Colombo from 1964, which was reinterpreted by Oluce in 2015. The light of this lamp is emitted by a cylindrical metal socket that is integrated into a transparent glass. The light source is directed downwards at an angle of 45 degrees, so that the light is emitted downwards and partially reflected from there into the room. The glass can be rotated sideways in the base of the lamp. The glass is mouth-blown and has a spherical shape with a diameter of 30 cm. The base of the lamp has a length and a width of 30 cm. The lamp has a surface of gold satin anodised bronze. The Globe 228 OR can be operated with E27 halogen lamps or LED retrofit lamps. The lamp is also available with a satin nickel surface.
