#### Description

The Vistosi 24Pearls pendant light consists of a total of 24 mouth-blown glass spheres. 12 white spheres each contain a light source and are mounted on the outer, upper level of the ring-shaped lamp body. Light effects are created by the reflections of the upper spheres on the lower ones. The 12 lower chrome-plated spheres reflect the light into the room. In addition, the white spheres also emit diffuse ambient light. The ring-shaped lamp body to which the spheres are attached is made of chrome-plated metal. The suspension cables are height-determinable up to a maximum of 200 cm.
