### Description

The Vistosi Alega table lamp has a lamp shade made of white glass. Its base is made of transparent crystal glass. This lamp emits its light both through the shade into the room and directly downwards. The lamp base is also illuminated, whereby the base reflects the light into the room. The metal connections of this table lamp are chrome-plated. The Alega is 46 cm high in total and has a 45 cm diameter shade at the widest point. An on / off switch is integrated on the supply line. Halogen lamps or LED retrofit are suitable as illuminants.
