## Description

The Vistosi Bolle SP G pendant lamp has a lamp shade with a diameter of 25 cm and a height of 24 cm. The shade is made of mouth-blown crystal glass. During processing, air bubbles are enclosed in the glass to give the lamp a special texture. This texture multiplies the reflections on the surface. The light is emitted by the lamp both directly downwards and into the room.

The Bolle SP G is available in crystal transparent and white. The metal parts of both lamps are satin nickel-plated. The cables can be shortened if necessary. With the supplied ceiling hook, the pendant lamp can also be mounted independently of the power outlet.
