## Bolle LT P

### Oberfläche

- transparent
- white

### Technical details

<b>Country of Manufacture</b>	 Italy
<b>Manufacturer</b>	Vistosi
<b>Designer</b>	Barbara Maggiolo
<b>Year of design</b>	2003
<b>protection</b>	IP20
<b>Scope of delivery</b>	Leuchtmittel/Bulb
<b>voltage suitability</b>	110 - 240 Volt
<b>material</b>	crystal glass, metal
<b>socket/light fixture</b>	G9
<b>switchability</b>	on the lead
<b>Power (max. Watt)</b>	60 Watt
<b>Shade diameter</b>	16 cm
<b>Dimensions</b>	H 19 cm

### Description

The Vistosi Bolle LT P is a table lamp with a lamp shade made of mouth-blown crystal glass. The glass is processed using the Balaton technique, in which air bubbles are enclosed into the glass. This creates a special texture which multiplies the reflections on the surface of the glass. In addition, a halo effect appears on the table on which the lamp stands. The lamp shade is available in crystal transparent and white surfaces. The lamp base is made of satin nickel-plated metal. Altogether the Bolle LT P is 19 cm high and has a lamp shade with a diameter of 16 cm. An on/off switch is integrated on the supply line. The table lamp can be operated with halogen lamps or LED retrofits.
