## Description

The two swivelling reflectors of the Holtkötter Flex Twin floor lamp can be separately switched and continuously dimmed using a separate touch dimmer on the lamp rods. The integrated memory function saves the last light setting when the light is switched off and automatically restores it when it is switched on. This floor lamp with flexible lamp arms is available in anodised brass, black, platinum and matt aluminium. The flexible lamp arm is available in black, grey, red, blue and sand.
