Description

The Holtkötter Plano W is a wall lamp with a swivel and tiltable lamp head. Depending on the adjusted inclination, the light is emitted from the lamp head downwards or onto the wall or wall bracket. From there the light is partially reflected into the room. The Plano W is available in two versions: with switch/push button dimmer or without switch. In the version with switch/pushbutton dimmer, this is integrated on the wall bracket. The LED has a colour temperature of 2,700 Kelvin extra warm white and can be replaced if necessary. The Plano W wall light is available in white, black, matt aluminum, platinum and anodised brass.
