

Serien Lighting

Jones black

Schirmdurchmesser

- 34 cm
- 45 cm

Voltage

- 230 - 240
- 110 - 125

Technical details

Country of Manufacture	 Germany
Manufacturer	Serien Lighting
Designer	Uwe Fischer
protection	IP20
Scope of delivery	LED
voltage suitability	110 - 240 Volt
material	aluminum, Borosilicate glass, glass, Textile
height adjustment	height adjustable
dimming	Push button dimmer at the light rod
Wattage	38 W
LED	inclusive
Colour Rendering Index	>97
Luminous flux in lm	3,500
Color temperature in Kelvin	2,700 extra warm white
shade color	white
Shade height	34 cm
lamp stand dimensions	33 cm
bulb exchange	on site itself

Description

This Serien Lighting Jones floor lamp can be continuously adjusted in height and thus used for different lighting. The lamp can be adjusted in height via two push button dimmers on the lamp rod. When the lamp rod is pushed upwards, the lamp can be used as a ceiling floodlight, as the light is mainly emitted to the ceiling. In the middle range of the height adjustment, the light is emitted diffusely into the room as well as directly downwards and upwards. When pushed down, most of the light is emitted downwards, ideal for a reading lamp.

The Jones floor lamp comes with an orange glass insert that can be easily inserted into the lamp shade if required. This illuminates the white lamp shade in colour. The lamp can be switched and dimmed via a third push button dimmer on the lamp rod. The lamp is available with two shade diameters: 34 cm and 45 cm. For both lamps, the shade is 34 cm high. The lamp with the smaller shade diameter is height-adjustable from 155 cm to 171 cm, the larger version from 152 cm to 172 cm. A replaceable LED is integrated as a light source if required.
