## Description

The Serien Lighting Slice2 Floor distributes its light both upwards and downwards. The light is emitted broadly and always glare-free upwards. Downwards, the light is distributed and glare-free through prismatic acrylic glass, making this lamp ideal for illuminating work surfaces. The lamp base can be positioned around a table leg to save space.

The Slice2 Floor is available in bright chrome, black, silver and white. The bright chrome floor lamp has a silver lamp base. This lamp is available in two versions:

- Version 1: with push button dimmer
- Version 2: with push button dimmer and motion and daylight sensor

Thanks to a memory function, the last brightness level set is saved and automatically selected the next time the lamp is switched on. As standard, the floor lamp has a colour temperature of 3,000 Kelvin warm white; on request, it is also available with 4,000 Kelvin white.
