

Knapstein

RUNA-152

Oberfläche

- nickel
- black
- bronze

Technical details

Country of Manufacture	 Germany
Manufacturer	Knapstein
Designer	Knapstein
Year of design	2019
protection	IP20
Scope of delivery	LED
voltage suitability	230 - 240 Volt
material	metal
height adjustment	height adjustable
dimming	gesture control
Wattage	72 W
LED	inclusive
Colour Rendering Index	>90
Luminous flux in lm	8,580
Color temperature in Kelvin	2.200 - 3,000 adjustable
bulb exchange	at the manufacturer / at the factory
total height	73 - 180 cm
Dimensions	H 5,5 cm B 2 cm L 152 cm

Description

The Knapstein RUNA-152 is a rectangular shaped pendant lamp with rounded corners and a length of 152 cm. By pulling or lifting the lamp itself, its overall height can be adjusted continuously between 73 cm and 180 cm. The lamp can also be suspended at an angle. The lamp radiates its light both upwards and downwards. Using gesture control, it is possible to switch the uplight and downlight separately and also to dim them continuously. The light colour for the uplight and downlight can be adjusted separately by gesture control to a warmer tone (from the colour temperature 3,000 Kelvin warm white to 2,200 Kelvin extra warm white). All dimming and light colour settings are saved via the memory function and are automatically reset when the light is next switched on.

The sensor area for gesture control is located centrally on the top and bottom of the lamp. The pendant lamp is switched on or off with a wiping hand movement in the sensor area. In order to dim the lamp continuously, the hand is held in the sensor area for a longer period of time. As soon as the dimming process is complete, the lamp flickers briefly. The light colour can then be adjusted by holding the hand in the sensor area again for a longer period of time. The RUNA-152 from Knapstein is available in matt nickel, black or bronze effect. There are also offered pendant lamps from the series with a length of 92 cm or 132 cm. On request, the RUNA is also available in other lengths or surfaces.
