- white

#### Version

- with Casambi module
- dimmable with a trailing edge dimmer and with a leading edge dimmer

### Technical details

<b>Country of Manufacture</b>	 Germany
<b>Manufacturer</b>	LDM
<b>Designer</b>	Lasch + Prillwitz
<b>protection</b>	IP20
<b>Scope of delivery</b>	LED
<b>voltage suitability</b>	230 - 240 Volt
<b>material</b>	acrylic glass, aluminum
<b>cable color</b>	transparent
<b>height adjustment</b>	height determinable
<b>Wattage</b>	32 W
<b>LED</b>	inclusive
<b>Colour Rendering Index</b>	90
<b>Luminous flux in lm</b>	3,232
<b>Color temperature in Kelvin</b>	2,700 extra warm white
<b>canopy dimensions</b>	7 cm
<b>bulb exchange</b>	at the manufacturer / at the factory
<b>total height</b>	120 cm
<b>Dimensions</b>	H 23 cm   B 39 cm   L 64 cm

### Description

The LDM Wyng Dot is a pendant lamp made of transparent acrylic glass. The acrylic glass is printed with a precise dot grid. The integrated LED provides an even, absolutely glare-free light. During installation, the lamp can be suspended at a downward or upward angle. When the lamp is tilted downwards, the point grid is located on the top and the greater part of the light is emitted downwards. The Wyng Dot is available in white, silver metallic and bronze. Its canopy is always delivered in the matching surface.

The pendant lamp is available in two versions: dimmable on site with a leading or trailing edge phase dimmer or with integrated Casambi module. The version with Casambi module can be dimmed with the Casambi App via Bluetooth using a smartphone / tablet. The ropes of the Wyng Dot can be shortened if required. Special rope lengths are also available on request. The pendant lamp is also offered as Wyng Cube with a square grid on the acrylic glass.
