## **Description**

The Knapstein ELEA-S has a rotating and tilting lamp head. A ball joint is integrated into the base of the lamp. In addition, the floor lamp can be tilted as desired via a joint on the lamp arm. Two push button dimmers are integrated into the lamp head. One push button dimmer is used to dim the light intensity. With the other push button dimmer, the light colour of the integrated LEDs can be mixed from 2,700 Kelvin extra warm white to 5,000 Kelvin cold white. The ELEA-S from Knapstein is available in brass matt and matt nickel-plated surfaces.
