### Description

The Mawa Pure table lamp LED can be tilted by 22 degrees. Its lamp head can be rotated by 360 degrees and swivelled by 90 degrees. For adjustment, there is integrated a practical, chrome-plated handle on the lamp head. The light is distributed directly and glare-free from the lamp.

The Pure table lamp LED is available in the surfaces black matt, white matt, sand silver and basalt grey matt. An LED with a colour temperature of 2,700 Kelvin extra warm white is integrated as illuminant. The lamp is switched and dimmed via a push button dimmer in the upper part of the lamp rod. The lamp is switched on or off by briefly pressing the push button dimmer once. The light can be dimmed continuously by pressing it longer. The last set light intensity is saved via a memory function and automatically selected again the next time the light is switched on.
