<b>socket/light fixture</b>	E27
<b>switchability</b>	pull switch, separately switchable
<b>canopy dimensions</b>	110 cm
<b>system performance</b>	3 x 60 Watt (max.)

### Description

The Brokis Memory Set Small PC1001 consists of the three differently sized ceiling lights Memory Ceiling 250, 300 and 400 on a white canopy. The ceiling light is offered here with the smaller two lights in the glass colour triplex opal and the largest light in yellow. All three lamps have a glossy surface. Each light can be operated separately via a pull switch on the light.

The three lights are made of mouth-blown triplex opal glass, the white canopy with a diameter of 110 cm is made of wood. Triplex opal glass is one of the highest quality materials used in the lighting industry. The handcrafted production of Memory follows the centuries-old tradition and experience of master glassblowers. The precise workmanship of mouth-blown glass gives all Brokis products a distinctive, durable character and outstanding quality. The glass shades are formed from several layers of molten glass, each of which is inspected by a master glassblower before being blown into its shape. Up to 70% of the quality is achieved at this stage of production.

The Memory lights are each available on request in glossy or matt in the glass colours triplex opal, grey, light pink, red, orange, yellow, apple green, turquoise and blue. If other glass colours are desired than the version shown, please indicate the corresponding colours and finishes in the comments field when ordering. As standard, the pull switches are supplied in black, but they are also available in white on request.

Each light is shipped with a high quality paper envelope containing the installation instructions, white cotton gloves to handle the light gently, a certificate of authenticity and the BROKIS Small Catalogue. After opening the box, you will find a QR code that will take you to a short video showing you how to safely unpack and commission your new lamp, as well as detailed information on how to properly clean BROKIS lamps.
