Description

The Domus Kioto 4 is characterised by a lamp shade that is divided into 4 fields. This lamp can also be mounted on the wall and is suitable for surface mounting as well as recessed mounting. The white transparent Lunopal of the lamp shade does not fade and gives the impression of Japanese paper. Domus has developed this high-quality material especially for its lamp shades. The Kioto 4 ceiling and wall lamp has a length and width of 36 cm. It is 8 cm high. The light source is a powerful, dimmable LED with a colour temperature of 3,000 Kelvin warm white. With a covering frame made of beech, which is available as an accessory, the metal holder of the lamp can be concealed if required.
