

Foscarini

Fleur

Farbe

- white
- red
- green

Technical details

Country of Manufacture	 Italy
Manufacturer	Foscarini
Designer	Rodolfo Dordoni
Year of design	2023
Diameter in cm	11
material	Glas und Metall
dimming	Touch dimmer
Wattage	1,6 W
LED #	inclusive
Colour Rendering Index	>90
Luminous flux in lm	188
Color temperature in Kelvin	3,000 warm white
protection	IP20
Scope of delivery	LED
voltage suitability	230 - 240 Volt
Dimensions	H 24 cm Ø 11 cm

Description

A small portable table lamp, rechargeable and dimmable, which emits light downwards. The Foscarini Fleur is characterised by an elegant and careful proportion between the two volumes that make it up: The lightness of the transparent glass base, which tends to disappear from view, is complemented by a light body with a strong presence in coloured polished ABS. Sophisticated colours that match different surfaces. When the Foscarini Fleur is switched on, the light highlights the profile of the glass stem and is diffused upwards, illuminating the surface around the base, creating a wider beam of light than traditional battery-powered lamps thanks to the specially designed LED board. Fleur is also very efficient: it consumes just 1 watt, but its LEDs - which are quickly charged via a USB-C socket - can emit a bright, variable light thanks to a touch dimmer. The light can be adjusted to three levels or switched on/off. The product is supplied with a USB-C cable for charging the battery, charger not included. Thanks to its compact size, the table lamp can be placed on any side table, sideboard or desk. The Fleur table lamp from Foscarini is not only a light source, but also a stylish decorative element. The lamp is available in the colours red (burgundy), green (sage green) and white.
