

Knapstein

MEGGI

Oberfläche

- nickel
- bronze

Technical details

Country of Manufacture	 Germany
Manufacturer	Knapstein
Year of design	2024
Depth in cm	7
Diameter in cm	30
material	Acryl, Metall
dimming	gesture control
Wattage	17 W
LED #	inclusive
Colour Rendering Index	>90
Luminous flux in lm	1904
Color temperature in Kelvin	Dim to warm
protection	IP20
Scope of delivery	LED
voltage suitability	230 - 240 Volt
Dimensions	Ø 30 cm

Description

The Knapstein MEGGI is equipped with a sensor dimmer that can be used to switch the lamp, dim it continuously and change the light colour. This sensor is located in the front part of the reflector. Simply swipe the sensor to switch the lamp on or off. The light colour of the lamp can be adjusted to a warmer tone (from a colour temperature of 3,500 Kelvin warm white to 2,200 Kelvin extra warm white). All dimming and light colour settings are saved using the memory function and automatically reset the next time the light is switched on. The tilt and turn joint on the reflector allows the light to be aligned and positioned as required. The Knapstein MEGGI emits indirect light, has a diameter of 30 cm and is 7 cm deep. The rotatable and tiltable reflector of this wall light has a diameter of 15 cm. The Knapstein MEGGI is available in several surfaces.
