### Descripción

The Foscarini Caboche Plus Tavolo Piccola is a table lamp. Its shade consists of spheres made of transparent polymethyl methacrylate in transparent or grey, which multiply the light of the central light source thanks to their ring-shaped arrangement. The inner diffuser made of white, satinised glass allows for optimal light distribution in all directions, while a diffuser made of aluminum hides the light source and thus protects it from glare. The zigzag shape of the mounting brackets diffuses the light to the maximum without shielding it. Once the spheres are attached, the mounting brackets are no longer visible.

The base of the lamp consists of a round frame with three supports. The Caboche Plus Tavolo Piccola has a diameter of 31 cm. An LED with a colour temperature of 2,700 Kelvin extra warm white is integrated as illuminant. The lamp can be regulated via a dimmer on the supply line.
