### Descripción

This Byok Squadrina table lamp is a lamp with table base. The stringent shaping and the purist optics are characteristic of the Squadrina Table Base. Due to the rotatable and tiltable base joint and the upper universal joint, this lamp is very flexible. Moreover the upper aluminium profile is turnable on its own axis. The table light is equipped with two LEDs which are dimmed with gesture control. During dimming, the light takes on a warmer colour, changing the light colour of the LEDs from 2,700 Kelvin extra warm white to 2,100 Kelvin extra warm white.

This table lamp is available in four surfaces. Byok also offers the Squadrina with a table clamp.
