Descripción

The Byok Assiale L is attached directly to the ceiling. It is available as fixed and rotatable. The joint of the rotating lamp is both flexible and robust. A spring-loaded mechanism protects the joint when the lamp is rotated.

The light is offered in anodized aluminum as well as on request powdered in RAL colours. The lamp is offered in three versions: on site DALI dimmable or controllable with light and motion sensors. It emits up- and downlight. In contrast to the Assiale T, this lamp has an L-shape.
