Descripción

The Cini & Nils Sferico opal pendant lamp emits glare-free room light. An opal lens is integrated in the lamp at both the top and bottom, through which the light is emitted softly and diffusely. This pendant lamp is available in white, silver matt and gold matt. Two LEDs, each with a colour temperature of 2,800 Kelvin warm white, are integrated. The Sferico opal can be dimmed on site with a trailing edge phase dimmer. On request, the lamp is also offered with an integrated Casambi module with which it can be dimmed via Bluetooth using a smartphone/tablet. In addition to this pendant lamp with opal lenses, a lamp with transparent lenses for focused direct and indirect light is also available from the series.
