Descripción

The Serien Lighting Cavity Recessed S is a recessed lamp for cavity ceilings. It has a height of 2.3 cm and a diameter of 10 cm. The integrated LED is recessed in the lamp, thus shielding the light at the sides. The ceiling light reflects a part of the emitted light itself. The recessed lamp is made of aluminum and is available in the following surfaces: black, white, aluminum gloss finish and bronze finish. The light source is a replaceable LED, which can be dimmed with a trailing edge or leading edge phase dimmer on site. The Cavity Recessed S has a colour temperature of 2,700 Kelvin extra warm white, on request it is also offered with 3,000 Kelvin warm white. A driver is included in the scope of delivery.
