

Knapstein

THEA-S-Flex

Oberfläche

- níquel
- Níquel-Cromo
- negro

Technical details

País de la Fabricación	 Alemania
fabricante	Knapstein
diseñador	Knapstein
protección	IP20
Volumen de suministro	LED
entrada de tensión	110 - 240 Volt
Proyección en cm	106
material	metal
Atenuación	control por movimientos
Potencia en vatios	10,8 W
LED	incluyendo
Indice de reproduccion cromatica	>90
El flujo luminoso en lm	1.200
Temperatura de color en grados Kelvin	2.700 extra blanco cálido
Dimensiones del soporte de la lámpara	22 cm
Dimensions	H 147 cm

Descripción

The Knapstein THEA-S-Flex is a floor lamp with a flexible lamp arm. It can be tilted at will by means of a ball joint on the base of the lamp. The lamp can be switched and infinitely dimmed via gesture control. The sensor for gesture control is located on the head of the lamp. The floor lamp is switched on or off with a wiping hand movement in the sensor area. To dim the lamp continuously, hold your hand below or above the sensor for a longer period of time. A memory function stores the last light intensity setting and automatically selects it again the next time the lamp is switched on. In the event of a power failure, the floor lamp switches on automatically if it was previously switched on. It remains switched off if it was previously switched off. This function is suitable for use with switchable sockets.

The THEA-S-Flex from Knapstein is available in matt nickel and black. The THEA-S is also offered from the series with a swivel and tilt joint for adjusting the lamp head.
