## Descripción

The Knapstein CORA emits its light upwards as a ceiling floodlight. In the lamp head of the ceiling floodlight is a glass lens, through which light is also directed downwards. The floor lamp can be adjusted in height between 125 cm and 185 cm at any time. The lamp can be switched and continuously dimmed via a rotary dimmer on the lamp rod. The CORA is available in brass matt and matt nickel-plated surfaces. The CORA-L is also offered from the series with a rotating and swivelling reading arm.
