

Byok

Mikado L

Oberfläche

- aluminio
- negro

Schirmfarbe

- marrón
- marfil

Technical details

País de la Fabricación	 Alemania
fabricante	Byok
diseñador	Kai Byok
año	2020
protección	IP20
Volumen de suministro	LED
entrada de tensión	230 - 240 Volt
material	aluminio, Textil
Atenuación	control por movimientos
Potencia en vatios	51 W
LED	incluyendo
Temperatura de color en grados Kelvin	Dim to warm
Diamètre de l'ombre	70 cm
Altura de pantalla	28 cm
Flujo total luminoso en lm	5.920
Dimensiones	H 175 cm

Descripción

The Byok Mikado L floor lamp is 175 cm high. Its lamp shade has a diameter of 70 cm at the bottom and 62 cm at the top. The shade height is 28 cm. A central light source and a downward directed spotlight are integrated in the lamp shade. The light is emitted mainly downwards and upwards. The two LED light sources can be dimmed separately by gesture control. Thanks to the Dim-to-warm technology, dimming changes the light colour of the integrated LEDs to a warmer tone (from 2,700 Kelvin extra warm white to 2,100 Kelvin extra warm white). The Mikado L is available with natural glossy anodised aluminum and matt black anodised surfaces. Its lamp shade is offered in the colours ivory and dark brown. Other shade colours are also available on request. In addition to this floor lamp, the Mikado XL is also available with a height of 200 cm.
