

Knapstein

PIA-4

Technical details

País de la Fabricación	Alemania
fabricante	Knapstein
diseñador	Knapstein
año	2019
protección	IP20
Volumen de suministro	LED
entrada de tensión	230 - 240 Volt
material	latón, vidrio
Atenuación	dimmable con control de fase inversa y con reguladores de control de fase
LED	incluyendo
Índice de reproducción cromática	>90
Temperatura de color en grados Kelvin	2.700 extra blanco cálido
El rendimiento del sistema	4 x 10 Watt
Flujo total luminoso en lm	3.920
Dimensions	H 5 cm B 41 cm L 41 cm

Descripción

The Knapstein PIA-4 is a square ceiling lamp. It has a length and width of 41 cm each. Its total height is 5.2 cm. Its flat design is made possible by a magnetic holder, which ensures also that no visible screws in the ceiling housing are existing. The light is diffused and homogeneously distributed downwards through a matted glass. The ceiling housing has a matt nickel-plated surface. Four integrated LEDs, each with a colour temperature of 2,700 Kelvin extra warm white, are included as light sources. The PIA-4 from Knapstein can be dimmed on site with a phase dimmer. The smaller, square PIA-1 and other rectangular or round ceiling lights are also available from the series.
