Descripción

The Grupa Baluna Table / Wall can be used as a table or wall lamp. It has a height and depth of 26 cm. Its shade is made of triple-coated, mouth-blown opal glass and has a diameter of 19.7 cm. The glass shade can be rotated 360 degrees around its own axis. A cord dimmer is integrated. From the glass shade, the light is emitted homogeneously and glare-free in all directions.

The Baluna table and wall lamp is connected via a supply cable with a length of 250 cm. Lamp base or wall mount are made of powder-coated black steel and are finished as well as assembled by hand. The Baluna is available in other finishes on request.
