

# Lichtlauf

## Archie B

### Technical details

<b>País de la Fabricación</b>	 Alemania
<b>fabricante</b>	Lichtlauf
<b>diseñador</b>	Christoph Matthias
<b>año</b>	2013
<b>protección</b>	IP20
<b>Volumen de suministro</b>	LED
<b>entrada de tensión</b>	230 - 240 Volt
<b>material</b>	aluminio
<b>superficie</b>	Aluminio pulido
<b>Color del cable</b>	transparente
<b>longitud del cable</b>	200 cm
<b>LED</b>	incluyendo
<b>Diamètre de l'ombre</b>	5 cm
<b>El rendimiento del sistema</b>	3 x 1 Watt

### Descripción

The Archie B. by the German manufacturer Lichtlauf is a lamp that can create a play of colour shadows. Three aluminium spheres emit red, green and blue light; when brought together, a clear white light is created. When this falls on an object, the white light creates colourful shadows - a magical moment. Three precisely adjustable polished aluminium spheres rest on rubber rings, so the coloured shadows can be aligned very precisely and create atmospheric effects. The diameter of each polished aluminium ball of the Archie B. by Lichtlauf is 5 cm. The transparent cable, which serves as a supply line, is 200 cm long. This LED lamp has an on/off switch on the distribution box. Align the spheres in such a way that together they produce a large-area white light on the illuminated surface (e.g. wall or ceiling). The edges may be coloured. Place an object between the spheres and the illuminated surface and let yourself be surprised by the colour shadows.
