#### Descripción

The Betec Centre ou table lamp has a height of 95 cm. An LED with a colour temperature of 3,000 Kelvin warm white is vertically integrated into the lamp rod and emits its light into one direction. The lamp rod can be rotated by 360 degrees, which allows the light to be redirected if necessary. The table lamp can be switched and dimmed with a rotary dimmer at the base of the lamp. All components of the Centre ou are made of brass in a German manufactory using traditional craftsmanship. The integrated LED is characterised by very good colour rendering with a particularly high colour rendering index of Ra >92.
