Volumen de suministro	Leuchtmittel/ Bulb
entrada de tensión	110 - 240 Volt
material	Lunopal, madera
Atenuación	Regulable en el sitio
base/portaámparas	E27
Color de la pantalla	blanco

Descripción

The eye-catcher of this ceiling lamp is the elegantly curved arch, which is made from a single solid piece of wood in many work steps. The white lampshade of the Domus Pila consists of Lunopal. Lunopal is a high-quality shade material that was developed by Domus. This material is thermally highly resilient and can withstand temperatures of up to 100°C. Lunopal is white transparent and gives the impression of fine Japanese paper. The environmentally friendly material is UV-resistant, washable and does not yellow. This ceiling lamp is available with a diameter of 45 cm or 65 cm. With a diameter of 45 cm, the ceiling light is 20 cm high, with a diameter of 65 cm, the Domus Pila is 23 cm high. This lamp has E27 sockets and can be operated with conventional halogen bulbs as well as with LED retrofit bulbs.
