

Domus

Julii Wall Lamp

Wandhalterung Oberfläche

- Haya
- blanco
- Maron

Technical details

País de la Fabricación	 Alemania
fabricante	Domus
diseñador	Stefan Wehrmann
año	2009
protección	IP20
Volumen de suministro	Leuchtmittel/ Bulb
entrada de tensión	110 - 240 Volt
Proyección en cm	18
material	Lunopal, madera, Textil
Atenuación	Regulable en el sitio
base/portaámparas	E27
Alimentación (máx. Watt)	75 Watt
Color de la pantalla	blanco
Dimensions	H 30 cm B 16 cm

Descripción

A single strip of Lunopal, intertwined twice, creates an airy, light structure. Open at the bottom and top, the lamp casts a charming play of light and shadow on the wall. Lunopal is a high-quality shade material developed by Domus. This material is thermally highly resilient and can withstand temperatures of up to 100°C. Lunopal is white transparent and gives the impression of fine Japanese paper. The environmentally friendly material is UV-resistant, washable and does not yellow. The real wood wall bracket of the Domus Julii is optionally available in beech, maron-oil or white lacquer. This lamp is 30 cm high, 16 cm wide and has a projection of 18 cm. This wall lamp has an E27 socket and can be operated with conventional halogen bulbs as well as with LED retrofit bulbs.
