

Bover

Nans Sphere PF/60 Outdoor

Schirmfarbe

- marfil pálido
- marrón
- rojo

Technical details

País de la Fabricación	 España
fabricante	Bover
diseñador	Joana Bover
año	2022
protección	IP65
Volumen de suministro	LED
entrada de tensión	230 - 240 Volt
material	acero Inoxidable, aluminio, policarbonato, polietileno
Atenuación	Regulable en el sitio con control de fase inversa
Potencia en vatios	14 W
LED	incluyendo
Indice de reproduccion cromatica	90
El flujo luminoso en lm	1.400
Temperatura de color en grados Kelvin	2.700 extra blanco cálido
Diamètre de l'ombre	60 cm
Altura de pantalla	57 cm
reemplazo de la bombilla:	en el fabricante / en la fabrica
Dimensions	H 82 cm

Descripción

The Bover Nans Sphere PF/60 Outdoor is a ceiling lamp with an almost spherical lamp shade made of a hand-woven, synthetic polyethylene fibre. Its lamp shade has a diameter of 60 cm and is 57 cm high. Including the lamp rod and the ceiling mounting, the lamp has a total height of 82 cm. The lamp rod and ceiling mounting are together 25 cm long. On request, the ceiling lamp is available with a total height of approx. 112 cm.

The Nans PF/60 Outdoor is available with a lamp shade in the colours red, brown and beige. The light rod including the ceiling mounting is made of stainless steel and aluminum and always has a graphite-brown colour. The synthetic polyethylene fibre of the lamp shade is so resistant and weatherproof that this lamp is also suitable as an outdoor lamp. With a protection rating of IP65, the ceiling light is dustproof and protected against water jets from any angle. The light is emitted downwards and sideways through the lamp shade. A diffuser made of polycarbonate ensures glare-free light emission.

The ceiling lamp is operated with an integrated LED that has a colour temperature of 2,700 Kelvin extra warm white. The LED can be dimmed on site with a trailing edge phase dimmer. A DALI or 1-10 volt dimmable version is also available on request. In addition, a version that can be dimmed with a Casambi module by smartphone using Bluetooth is also offered on request. This optionally available version with Casambi module can be operated easily and intuitively via mobile devices using the free CASAMBI app (iOS and Android). Casambi thus expands the control options with functions such as dimming, grouping of lamps, programming of groups and scenes, automations and much more.

Cala Nans is a small cove in Cadaques (Spain), accessible only by footpaths or by sea. An unspoilt corner of the Mediterranean, where vegetation and the vigilance of an old lighthouse make this place a primordial spot where all you can hear is the sound of the sea and the birds flying over the coast. The Nans lamp is characterised by high quality craftsmanship of the lamp shades and

creates a true Mediterranean style.
