## Descripción

The Domus Stele is available in oak, core beech and walnut finishes. The square lamp base is made of steel. Its two-part lamp shade is made of white transparent Lunopal. Lunopal is a high-quality material that Domus has developed for its lamp shades and is both environmentally friendly as well as temperature-resistant. This material gives the impression of fine Japanese paper and does not yellow. This Domus Stele has an E27 socket and can be operated with replaceable LEDs (retrofit). It can be regulated with a foot dimmer on the supply line.
