Descripción

The Arturo Alvarez Parga 3 PA304 pendant lamp has a lamp shade made of Galician granite. The lamp shade is 30 cm high and has a diameter of 8 cm. Galician granite is natural, sustainable and heat-resistant. The granite used for the Parga lamp is compact, light grey in colour and uniformly interspersed with black spots and fine grain.

The Parga 3 PA304 can be individually suspended in total height during installation. A dimmable LED is included as illuminant, which is offered with a colour temperature of 2,700 Kelvin extra warm white or 3,000 Kelvin warm white. The pendant lamp distributes its light directly and glare-free downwards.
