### Description

The Foscarini Havana Parete is a shapely wall lamp providing for a diffuse light distribution. Its natural shape the warm material used to form the diffuser and the softly radiated lighting make it an easily applicable luminaire. The volume of the Havana Parete seems to be large but in fact it is more reduced than it appears. The diffuser out of polyethylene is available either in white yellow or ice-coloured (slightly transparent). The power supply of the Foscarini Havana Parete is provided for via the ceiling or wall canopy.
