### Description

The Oluce Line 147 - 149 was designed by Francesco Rota in 2009 and is a wall lamp. The aluminum reflector of the lamp enables glare-free lighting because it is placed in front of the light source. The lamp shade has an oval cross-section and consists of transparent Pyrex glass. The Line by Oluce is offered in two sizes: with a height of 30 cm (Line 147) and with a height of 43 cm (Line 149). The wall lamp Line 147 - 149 can be operated with two G9 high-voltage halogen bulbs with max. 40 Watt or with LED retrofits.
