

Foscarini

Le Soleil Sospensione Halogen

Technical details

Pays de fabrication	 Italie
fabricant	Foscarini
concepteur	Vicente Garcia Jimenez
année	2009
protection	IP20
Contenu de la livraison	Leuchtmittel/Bulb
aptitude de tension	110 - 240 Volt
Diamètre en cm	62
matériel	métal, polycarbonate
réglage de la hauteur	hauteur déterminée
atténuation	dimmerable sur place
canopée Dimensions	16 cm
Les performances du système	3 x E27 70 Watt + 1 x GU10 PAR 16 75 Watt (max.)
Dimensions	H 43 cm Ø 62 cm

Description

The Foscarini Le Soleil Halogen is a pendant lamp designed by Vicente Garcia Jimenez. Its diffuser consists of polycarbonate and it is held by three ropes. This diffuser is in white. The light has three E27 illuminants plus one GU10 light source.

The cable length is by default 320 cm, on request also a lamp with a longer cable is offered. The Le Soleil is made of polycarbonate with an opaque finish. It is a material that screens the light perfectly to create particularly warm and pure reflected illumination. The volume is rendered more dynamic by the irregular edges of the bands of which the shade is made. These details recall the softness of the light and mean that it appears different depending on one's point of view. The lamp is also available with an integrated LED.
