Description

The Foscarini Aplomb Large is a pendant light made of concrete and emits lights broadly downwards. The lamp shade has a diameter of 45 cm and a height of 20 cm. The Aplomb Large was created in 2016 by the designer team Lucidi & Pevere and is offered in the surfaces brown, grey, anthracite and white. It is suitable for the private sector as well as for the business sector.

The lamps in brown, anthracite and grey have an electric cable as well as a canopy in black, for the white lamp electric cable and canopy are in white. The light is available in a not-dimmable as well as a DALI dimmable version. By default, the cable has a length of 320 cm and can be individually set in its length during assembly. A lamp with a longer cable is also available on request.
