

Luceplan

Hope Wall 48

Technical details

Pays de fabrication	 Italie
fabricant	Luceplan
concepteur	Paolo Rizzatto
concepteur 2	Francisco Gomez Paz
année	2009
protection	IP20
Contenu de la livraison	Leuchtmittel/Bulb
aptitude de tension	110 - 240 Volt
Profondeur en cm	29
Diamètre en cm	48
matériel	acier, polycarbonate
surface	transparent
atténuation	sur place dimmerable avec gradateurs de commande de phase
base/version	R7s
Puissance (max. Watt)	120 Watt
Flux lumineux en lm	2.250
La température de couleur en Kelvin	2.950 blanc chaud
répartition de la lumière	indirectement
Dimensions	H 43 cm Ø 48 cm

Description

The Luceplan Hope Wall 48 is with its diameter of 48 cm, the smaller light of two wall lights which are available in this series. It has a depth of 28.5 cm and a height of 43 cm. The light can be dimmed on site. The lamp body of the wall light consists of several pairs of arms arranged in pairs, on which a total of six Fresnel lenses are placed. The lenses break the light of the illuminant like glass and simultaneously produce a variety of reflections on the wall, ceiling and floor.

Designed by Francisco Gomez Paz and Paolo Rizzatto in 2009, the lamp and the complete series was inspired by the famous Hope Diamond. The series has been awarded with numerous prizes, including the Red Dot Design Award and the Compasso d'Oro.
